RE: *Single ATV rollover sends two patients to the hospital*

Chehalis -- Lewis County Fire District 6 received a report of a single ATV rollover in the 1400 block of Brown Road West south of Adna just before 4:30 pm Friday, November 24th with injuries. Initial reports stated a single ATV was travelling downhill on Brown Road West when it struck a dog, causing the ATV to roll, ejecting the two riders on board. Reports from Lewis County 911 stated one patient, a 32-year-old male, was unconscious and bleeding, while the other patient, a female, was conscious and bleeding.

The Fire District, along with crews from AMR, arrived on scene finding the 32-year-old male laying in the roadway, and the female patient standing in the roadway talking to bystanders. Crews treated the 32-year-old male on scene, who suffered severe head trauma. The male was flown to Harborview Medical Center in Seattle by AirLift Northwest from a nearby landing zone with life threatening injuries. The female patient was also treated on scene and transported by AMR to Providence Centralia Hospital in Centralia for non-life threatening injuries.

Neither patient was wearing a helmet at the time of the collision.

The collision is under investigation by the Lewis County Sheriff's Office.
